ゼミコースアウトライン Seminar Course Outline

For 4th year students

教員名(Name) : Philip Rush (フィリップ・ラッシュ)

*ゼミタイトル Seminar Title

The British Empire and Post-War Britain

*授業概要 Outline of the contents

In this seminar we will look at the role of Great Britain in the modern world, in particular:

*Britain and Empire

*Britain and Europe.

* Britain and Japan.

We will also look at post-1945 Britain through its music and its movies. Occasionally we will deal with current British events and topics, using video of BBC News programmes and associated articles, etc. from newspapers and magazines. This will continue through both semesters.

*授業の形式 How the class is conducted

The first part of most classes will be based on the above topics, with video and printed materials. You will then be asked to discuss these in English. You will also be asked to choose two areas for personal research – a region, and some aspect of life in Britain - and make short presentations in English to a small group in most weeks. These presentations will be made into a 16-page portfolio in English in each semester.

*課題・成績評価基準 Requirements and Assessment

Your final grade will be based on your attendance, the presentations you made, and the written portfolio on your personal research which has to be handed in at the end of each semester.

*その他 Others

There is no text for this course. Handouts will be given.
